

BULL BEAR DEFENSE SOLUTIONS

Capability Statement

CAGE: 8NED6 | UEI: CBJQL2LCXY46 | DUNS: 117592650

GSA Contract Holder

Contract Number : 47QCA24D006C

WHO WE ARE

100% Native American-Owned

CORE COMPETENCIES

IT System Modernization

- Agile modernization
- Legacy to Cloud migrations
- IaaS / PaaS / SaaS
- DevSecOps, CI/CD pipeline, IaC
- FedRAMP+, DoD PA, cATO, ATO, ISCM
- Secure architecture design engineering
- Low code platform administration

Governance, Risk, & Compliance (GRC)

- Cybersecurity Risk Assessments
- NIST SP 800 series expertise
- Risk Management Framework (RMF)
- ATO lifecycle experts - eMASS / XACTA
- Vulnerability & POA&M management
- Application and code vulnerability testing
- NIST 800-171 & SPRS

Chief Jock Bull Bear

Mrs. Jessica McKinley, our Founder and President, is a proud tribal member of the Caddo Nation of Oklahoma and the great-great-granddaughter of Chief Jock Bull Bear of the Arapaho Tribe.

ESCAPE

Contract Highlight:

As a subcontractor supporting the USAF HQ AFMC Enterprise Supply Chain Analysis Planning and Execution (ESCAPE) program, Bull Bear Defense delivers exceptional ISSM and ISSO Cybersecurity subject matter expertise to the global logistics supply chain IT systems for the warfighter. Our industry certified Information System Security Manager (ISSM) and Information System Security Officer (ISSO) have led pre acquisition cybersecurity planning through all steps of the Risk Management Framework (RMF) for 3 contracts (140 million total value) supporting the ESCAPE PMO. Our team's subject matter expertise delivered two global modernized logistics supply chain capabilities to 4000 users worldwide. This effort modernized 50-year-old USAF logistics processes and integrated 100+ sources of legacy disparate AF logistics data into modernized cloud platforms. Our ISSM has personally supported this effort for nine years to protect the confidentiality, integrity, and availability of the USAF global warfighter.

e-2875

Contract Highlight:

As a subcontractor supporting the USAF Robins AFB e2875 program, Bull Bear Defense delivered exceptional ISSO Cybersecurity subject matter expertise for the e2875 cloud modernization effort. Our industry certified Information System Security Officer (ISSO) delivered a combination of security engineering, management of the ATO authorization process, and overall guidance to the program to ensure the ATO processes were managed and advised to our client. This process included the design, testing, and execution of all security testing for delivery for the USAF e2875 program. Our ISSO demonstrated a deep understanding of the requirements to migrate to a modernized cloud environment, including infrastructure as a service (IaaS), platform as a service (PaaS), software as a service (SaaS), and the associated DoD provisional authorization impact levels and their cybersecurity requirements. This effort led to a successful deployment into the Cloud One enclave for our client.

BIA-USIPA

Contract Highlight:

As a prime contractor supporting the US Bureau of Indian Affairs Indian Police Academy (USIPA) headquartered in Artesia, New Mexico, Bull Bear Defense has delivered a modernized FedRAMP Software as a Service (SaaS) training platform leveraging our partnership with Envisage Acadis. The Acadis Readiness Suite delivers a comprehensive, modular training management framework for training and compliance, and a commercial-off-the-shelf (COTS) software solution that supports 2500 users at the USIPA in their public safety efforts. Our digital modernization effort, in partnership with USIPA, is revolutionizing paperwork processes into a digital transformative capability supporting Indian Country and USIPA.
